

Universal Fraud Detection System

Market leading bet monitoring solution offered at no cost to sports federations and leagues worldwide |

FREE OF CHARGE

UFDS

The UFDS is Sportradar’s core technical bet monitoring and alerting platform that is deployed to detect irregular and suspicious betting patterns in the global market. Qualified experts analyse irregular betting patterns and any suspicious matches are reported to UFDS partners.

KEY COMPONENTS

Odds/line monitoring of 600+ global bookmakers

Account level monitoring of bet staking data from 130+ global bookmakers

Pre-match and live monitoring driven by sophisticated models and machine learning algorithms

Analysis of betting patterns by qualified Integrity Analysts

Notification of suspicious matches

Technical maintenance and security

* Additional Premium FDS Services - such as dedicated account management, investigation support, detailed reporting and real-time analysis and notification - are available for a fee. Further details on request.

OUR PARTNERSHIPS

Over 100 sports governing bodies, clubs, anti-doping organisations and law enforcement agencies rely on our services.
